State Route 315 narrows to two lanes and becomes Olentangy River Road just north of I-270

There are two entrances to Olentangy Valley Center. The most convenient entrance for northbound clients is a divided drive between the BP Station (currently under construction) and the Marathon Station. Our offices are located directly behind the BP Station.

There are two entrances to 7760. During normal business hours, parking is sometimes more convenient near the back (North) entrance.

For clients with late evening appointments, if the building doors should be locked, you may let us know of your arrival by coming around to the Suite 122 door on the North side of the building.

When leaving the center, southbound clients will find it safest and most convenient to exit the Center via the north drive, which has a traffic light.
